RTD

As the coronavirus pandemic continues to change our lives, we want you to know that the health and safety of our riders, employees and their families continues to be the top priority for all of us here at the Regional Transportation District (RTD). We want to make sure you know about the proactive measures we're taking to keep everyone as safe as possible.

We continue to clean our buses and trains daily, wiping down surfaces, hand rails, hand grips, etc. with industrial grade disinfectant. We are also providing our operators with hand sanitizer and cleaning supplies to keep their work areas clean. We have restricted public access to RTD facilities and are limiting time for our riders to congregate at our Denver Union Station Bus Concourse and Civic Center Station.

Access-a-Ride will suspend five-day advanced bookings, allowing customers to book next day trips only. All standing orders from Friday, March 20, will be canceled. Customers can call 303-292-6560 to book trips. This information has been communicated to our customers in various ways, through the established customer messaging systems, media release, info on website, etc. These steps will reduce demand for staff and allow us to continue to provide essential trips for our customers. This is not a cut in service, but designed to better serve the customers who do need service during this time. This change will remain in place until Governor Polis lifts the state of emergency.

We are in close coordination with the World Health Organization, Centers for Disease Control and Prevention, the Colorado Department of Public Health and Environment, and the Denver Office of Emergency Management. We have a strong collaboration of partners working together across the region and the state as we all do our part to combat this virus and its threat.

We've compiled answers to some of the frequently asked questions we've been getting. You can find our FAQs on our News Stop [FAQs on RTD's Response to the COVID-19 Pandemic](#).
