

MANUFACTURING OUR FUTURE – CME REPORT

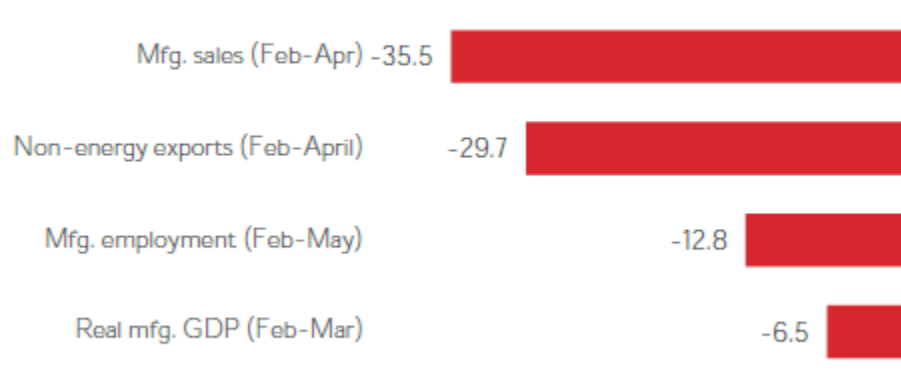

The [Canadian Manufacturers and Exporters Association \(CME\)](#) has released [Manufacturing Our Future](#), a three-phased strategy aimed at relaunching Canada's manufacturing industry and creating long-term economic prosperity for all Canadians.

The three-phased strategy consists of nine calls to action, including:

- Continuation and expansion of government emergency support programs.
- A Made-in-Canada promotional campaign that would spur demand for Canadian products.
- Governments playing a role in boosting demand for Canadian products by leveraging procurement and increasing infrastructure spending.
- Creation of a national manufacturing strategy.
