TESTIMONIALS

When I submitted my Leadership application, for me... it was a way to learn about a community that I work in, and spend a lot of time in. I was hoping to make new connections in this great community. This was a great growth opportunity for me from forming new connections, friendships, and learning about the different areas of Waseca, and strengths... Ways to use my strengths and to recognize other people's strengths. It's been a great experience and I have truly enjoyed the last 9 months. I did make new connections, I did meet new friends, I did learn more about this great community. Laurie Jensen

The academy was a great opportunity to network with professionals from many different industries here in our community. Each month there was a focus on key areas to our community that showed how and why it was important. It gave me a different outlook on how the city itself works and that it works better when people get involved. The government day at the capitol gave me a better insight on what it takes to get things done on a larger scale such as the highway 14 project. After completing this course I believe that I am better prepared to help make a positive difference in the community. Jedidiah Kallow

Participating in the Leadership program expanded my network of contacts and helped me have a better understanding of the community. The presentations and exercises were interesting and challenging. You had to think and work with others to complete the assigned tasks. Gary Sandholm
