UNRAVEL THE MYSTERIES OF WORKPLACE EMPLOYMENT...

Best practices for getting the right people in the right positions, all motivated to do their best work

Join ChamberWest and the *Employers Council* for those
sessions that would be most beneficial to you.

SPRING

WEDNESDAY, MAY 8th, 8:30-10:00 a.m.

The Spring session will be an enlightened look at current
engagement statistics and what is behind those numbers.

- What actually helps improve employee engagement?
- What is a fad vs. what is truly meaningful to employees?
- Do I really need a foosball table in my workplace?
- What things that most employees, regardless of their age or role in the organization, want from you as an employer?
(*HINT: Don't buy stock in foosball table manufacturers.*)

SUMMER

WEDNESDAY, AUGUST 14th, 8:30-10:00 a.m.

In the Summer session, we look more in-depth at the
circumstances where you might actually want employees to leave.

- Some **employee turnover** actually can be good
- Focus on whether the right people are staying and the right people are leaving
- Asking the right questions can give you significant insights into how to improve your "organizational gene pool"

FALL

WEDNESDAY, NOVEMBER 13th, 8:30-10:00 a.m.

During the Fall session, we'll revisit those perennial "**Generations**" questions:

- How do I work with employees who are significantly younger/older than I am?
- What can I do to flex my style so I can communicate with employees in ways that are meaningful to them and feel authentic to me?
- With four generations in the workplace, where do I go to attain a greater awareness and specific skills to attract, communicate with, and engage employees from 18 to 80?
