Assured Enterprises, Inc. acquires Nova Defense & Aerospace International, LLC

Ret. Brig. Gen. William M. Jacobs joins Assured as its Chief, Federal Sector

Assured Enterprises, Inc., a leading cybersecurity firm based in Austin, Texas, with ties to the Federal defense agencies and Intelligence Community, has acquired Nova Defense & Aerospace International, LLC (NDAi). The former CEO of NDAi, Ret. Brig. Gen. William M. Jacobs, a member of the Board of AFCEA International, has joined Assured as its Chief, Federal Sector.

Founded in 2009 in Alexandria, Virginia, NDAi is an experienced Intel/IT and business strategy consulting firm. NDAi offers consulting expertise and experienced general management for the communities associated with Intelligence and IT (I2), Diplomacy, Defense, Aerospace, Security, C4ISR, Cyber, Linguistics, Program Management, Training, and Acquisition.

"With its high quality support for the nation's defense and Intelligence Community, NDAi brings to Assured Enterprises a wealth of battle-hardened field experience in the security industry. We are excited to add NDAi to our cybersecurity team as we focus on securing the national infrastructure and its vital commercial sectors," stated Assured CEO Stephen Soble.

"We are honored to join Assured Enterprises' first rate team to further its mission of providing state-of-the-art cybersecurity products and sophisticated cybersecurity services. Assured's new vulnerability assessment tool, AssuredScanDKV™, is the new gold standard in deep software scanning. This patent pending tool provides a cost effective roadmap for remediation of known vulnerabilities. This is a game-changing product," noted Bill Jacobs.

"Bill's joining Assured as our Chief, Federal Sector, is a professional and personal honor. He brings integrity, insight, knowledge and the finest character to our Federal Team," said Stephen Soble.

"I am eager to introduce Assured's cybersecurity solutions to the Department of Defense and the Intelligence Community. Federal agencies, defense contractors and financial institutions that support the DoD and the Federal Government are mandated by Executive Order, OMB Circular and DoD regulations to adopt the state-of-the-art cybersecurity. Assured offers the only Deep Software Scanning on the market," Bill Jacobs added.

About Assured Enterprises:

Assured Enterprises offers proactive comprehensive cyber-security solutions to the Federal and Commercial sectors. Built upon years of expertise in highly secure environments, Assured delivers tailored products and solutions in Cyber Maturity, Exposures, Vulnerability and Risk Assessments, Analysis, Analytics, Design and Architecture.
