

TOP 5 BENEFITS OF TSPLOST FOR EFFINGHAM

HERE'S WHAT YOU CAN EXPECT FROM AN EFFINGHAM TSPLOST

BETTER ROADS NOW AND FOR THE FUTURE

The estimated \$45 million in TSPLOST-funded projects will improve our roads now, and keep them safe into the future. TSPLOST will also speed up projects that divert trucks off of local roads as our industries grow.

REDUCED BURDEN ON PROPERTY TAXES

TSPLOST will allow our cities and county to hold down property taxes and improve our roads. The City of Rincon has no property tax, and no funding source for road improvements. Without stable funding, our roads will continue to get worse.

TSPLOST FUNDS STAY IN EFFINGHAM COUNTY

The TSPLOST collected here can only be used for local transportation purposes. That includes new paving, repaving and repairing roads and streets, drainage and safety improvements, intersection improvements, roadside maintenance and sidewalks.

SOME COSTS PAID BY NON-RESIDENTS

The proposed one cent TSPLOST applies to all who purchase goods in our county, not just those who own property. In addition, an estimated 24%-35% of TSPLOST funds will be paid by sales of natural gas to utilities located in Effingham County generating power for households in and outside the county

MORE ACCESS TO MATCHING GRANTS

TSPLOST funds can be used to match transportation grants from state and federal governments. This local funding source can help us generate additional grant money.
