

Highway 27 Project

Hooray! Construction season has finally arrived and we get to see our tax dollars at work improving our streets and bridges! MnDOT has 221 road projects in the works for 2019 with several impacting the residents of Morrison County either through the delivery of commercial goods and services or work and leisure travel.

As you plan your work and vacation routes around construction areas, enjoy the detours that take you off the main roads and explore new towns and attractions.

Little Falls is the beneficiary of some of those tax dollars with the highway 27 / Broadway Avenue road work that started in April. The message that Little Falls is sending far and wide is that we are OPEN FOR BUSINESS!

As the road work progresses through town, access will be available to businesses in the construction zone with make-shift sidewalks and remember that many businesses have back doors as well. Look for temporary signage to help you find your way. Parking will be available in city parking lots and side streets. This project will encompass sidewalks, roadways, utility work and street lights.

For up-to-the-minute information on construction in downtown Little Falls, go to www.mndot.gov/d3/littlefalls and subscribe for email updates.

The Downtown Council has been meeting since last fall to plan events to bring people into Little Falls. Dubbed “The Big Dig Little Falls”, planned events focus on Thursday nights with family friendly concerts, games and events scattered throughout the streets, parks and parking lots in the downtown area. Follow the Big Dig Little Falls on Facebook and watch for the Big Dig information trailer at all events.

Some key dates to note: the Broadway Bridge will be closed from April 29 – May 11 for utility work with 1st Street NE to Highway 10 as the detour route work is scheduled to begin with the east side of the Mississippi River to 4th Street in early May with the detour on Front Street to 1st Avenue SE to 4th Street SE and reverse to go west in late June, work will begin on the west side of the Mississippi River to 6th Street W with the detour of Paul Larson Drive, 9th Avenue and Lindbergh Drive. It is anticipated that all road work will be completed on the east side of the Mississippi River by Fair weekend September 7 & 8. The west side, time will tell!

It's Member Renewal Time

It's member renewal time at the Little Falls Area Chamber of Commerce! Make your membership a “must” investment for your business.

The Chamber of Commerce is the front door to the community, working on your behalf every day to help your business and the area prosper. We are your voice in the business community providing a venue for networking with prospective customers. The Chamber of Commerce is a seal of credibility as people do business with people they know and trust.

Chamber membership is a valuable tool in helping the community locate your business. First and foremost, referrals are made to Chamber member businesses and only when there is no member providing the requested service, another local business is offered. The printed Membership Directory, as well as the Chamber website member directory is the first stop for many looking for goods and services.

Member renewal notices will be emailed at the end of this month. *We do accept Visa and MasterCard.*

From the desk of the CEO . . .

Debra K. Boelz

Congratulations to all the students who are graduating this spring! I hope that your high school or post-secondary education has positioned you to be successful in life!

With record low unemployment, opportunities are abundant at all skill and interest levels. The lack of skilled workers is often the discussion around chamber gatherings. It is easy to express disappointment in the lack of industrial art classes in high schools that but it goes deeper than that. How do young people develop an interest in being an electrician, a plumber or welder? Who is going to do small motor or engine repair once the current generation retires. Rebuilding the Notre Dame Cathedral may take years if not decades to

restore as the skills needed to perform the work that is original to the structure no longer in exists in the current workforce. People need to be trained in the intricate tasks before working on the restoration.

The occupation that holds the #1 spot in labor market surveys is registered nurses. The bottle neck for training nursing students is lack of instructors. That has nothing to do with what is being taught in high schools. Automotive repairs are seldom done in backyards as vehicles need to be hooked up to a computer to run diagnostics. The opportunity for knowledge to be passed on from one generation to the next on a Saturday afternoon no longer exists.

The Minnesota Chamber of Commerce has created the Business Education Network (BEN). Locally, the Bridges Academy that is utilized in our local high schools is used as an example of getting students and employers in the same room. The Career Fair at Central Lakes College draw thousands of students from 28 districts in central Minnesota to experience first- hand what it means to work in a specific fields.

BEN also works with educators to provide field trips to tour local manufacturers so teachers can speak with first-hand knowledge about what it looks, sounds and smells like in a factory job. Working on a product line is not always the way it is portrayed in movies and on television. On-the-job training opportunities, job shadowing and on-line job applications all make it easy to experience a multitude of career options.

The issue of the job market shifting to positions that we cannot predict makes planning for the future a moving target!

On a national level, the news is filled with stories of immigrants seeking to enter the United States. Some see this as a burden on the social welfare, educational and penal systems while others see the opportunity to set up a job fair! Discuss!

In closing, thank you to the Friends of Linden Hill for sponsoring the Easter Egg Hunt for the community this year. What a huge undertaking! That event is the kick-off to a summer of great community events, large and small, throughout the county and region! Make this your "Summer of Fun"!

Welcome to our newest member!

May Employee of the Month

Sherry Senn-Post, New 2 You Thrift Store

The Little Falls Area Chamber of Commerce is pleased to announce our May Employee of the Month, *Sherri Senn-Post*, **New 2 You Thrift Store**. Sherri has been the Assistant Manager at New 2 You Thrift Store since March

and the Store Room Manager for the past 4 years.

Phil Smith states about Sherri: "Sherri joined the New 2 You staff in February of 2015. Shortly after the store opened. She always makes sure the volunteers know how valued they are to the success of the store and in turn the contribution they are making to the kids at the Boys and Girl Club. In addition she is always very willing to help their donors unload their donations or load their purchases. She can be found helping customers locate items on the sales floor, ringing up their purchases and also stocking the shelves while always doing so with a smile. Through her efforts and leadership the store has continued to grow and is able to help cover a portion of the operating expenses of the Boys and Girls Club. Thank you for all you for the "kids" Sherri."

Sherri states: "I am very honored to be chosen as the May Chamber Employee of the Month! It was very unexpected and a big surprise at the same time. Working at New 2 You Thrift Store has been rewarding from the first day I was hired in 2015 as a stockroom manager and in March of 2019, I was promoted to assistant manager. I have 21 volunteers that I oversee. Without their hard work and dedication it would be almost impossible to keep the store running as smoothly as it does. They make my job so much more pleasant. I enjoy the people I work with and our many awesome customers. I am grateful for my job and all of the blessings that come along with it. I feel so humbled to have been chosen as the May Employee of the Month."

Thank you to our May Employee of the Month sponsors:

Berg's Bug Removal, Bursch Travel Agency, Coborn's Floral, Fitness Connection, Franciscan Sisters, Fresh Hair Professionals, Friends of Pine Grove Zoo, Johnny C's Sports Bar, Linden Hill Historic Event Center, Maddie B's Photography, Perkins Restaurant & Bakery, Pine Ridge Golf Club, Pizza Ranch, Subway, Little Falls, Vacuum Cleaner Outlet & Service Center.

Congratulations Sherry Senn-Post!

Friday Morning Coffee

Friday, May 17

Minnesotans say loud and clear: Don't overload on taxes

By Doug Loon

We recently asked Minnesota voters what they thought about current legislative proposals to raise business taxes and the gas tax, and to impose mandates on employers and employees.

The poll results reflect that Minnesotans want our state to be affordable for families and businesses to grow and flourish. High tax rates negatively impact investment, wages, entrepreneurship, and talent retention and recruitment – the very items needed for a strong and growing economy.

It's a message we all need to convey as the Legislature enters the home stretch and is embraced by the Minnesota Chamber Federation as we advocate to strengthen the business environment for the benefit of all Minnesotans.

Among the survey findings:

- Voters statewide oppose the governor's proposed business taxes by a nearly 2-to-1 margin. In Greater Minnesota, it's 3-to-1.
- Minnesotans who strongly oppose a new payroll tax to fund a state-run paid leave program outnumber all those who support it. Opposition is stronger in Greater Minnesota where 29 support and 65 percent oppose the proposal.
- Nearly two-thirds of voters statewide oppose the proposed 20-cent-per-gallon gas tax, and 54 percent strongly oppose it. Almost four times as many voters in Greater Minnesota oppose the increase as those who support it.

The Legislature is debating proposals to increase taxes and fees by nearly \$12 billion over the next four years. Much of that burden would fall directly on the business community with cost increases estimated at \$5 billion to \$6 billion. The proposals would set roadblocks to investment, slow economic growth and threaten Minnesota's affordability.

These proposals are not only bad for business. They hit the pocketbooks of all Minnesotans. That's the analysis of the Minnesota Department of Revenue. Higher business costs eventually are passed on to employers, consumers and investors.

Minnesota has a \$1 billion budget surplus and record cash reserves. This is not the time to raise the cost of doing business in the state and make Minnesota less affordable for all. Let's instead minimize the headwinds and enhance the ability of private-sector job-creators to grow the economy.

Doug Loon is president of the Minnesota Chamber of Commerce – www.mnchamber.com.

FALS (*Falls Area Leadership Series*)

FALS is an eight month program that meets monthly to develop personal leadership skills and learn more about the community in which we live, work and do business. The 2019-2020 FALS program year will begin, Wednesday, October 9, 2019. Program details will be available by early summer. Watch future Chamber communication for additional details.
