

Interested in plants, animals or chemistry?

Check out a career in Agriculture, Food and Natural Resources!

John Mickman,
CEO & Founder

Mickman Brothers
Landscaping

A career in the Green Industries offers opportunities to work with plants and people in a meaningful way to have a significant, positive effect in our communities. These industries promote conservation and sustainable practices to enhance the health of our natural world.

Sue Melchoir, Chemist,
**Laboratory Director/
President**

Instrumental
Research, Inc.

“I operate a commercial laboratory that analyzes water quality. We test drinking water, lakes, and industrial wastewater for bacteria, toxic chemicals, heavy metals, and a host of other parameters. We perform these services for municipalities, parks departments, and private home and business owners. My career as a chemist and business owner has been very satisfying because I am helping to protect our environmental and human health.”
