

## **Exciting Changes on the Horizon for the Lewisville Area Chamber of Commerce**

The Lewisville Area Chamber is located on North Valley Parkway in Lewisville in a building built in 1997. While the building has served the chamber well over the years, it has never had any updates or renovations since it was built. We're excited to announce the chamber will undergo complete remodel over the summer.

The building will receive a new outside facade facing the parking lot that will mimic the character of Old Town Lewisville, and inside will be repurposed into a large community event space with the capacity to accommodate close to 120 people. This will be a great option for businesses and organizations in the Lewisville and surrounding areas to hold events and meetings.

The chamber's President, Lori Fickling, has a vision for the chamber to become a community hub; a place where people can drop in and do some work if they need to, have one-on-one meetings or large meetings, as well as be a resource to community to connect people with local businesses. The project is expected to be complete before the end of summer and will follow with a grand reopening and ribbon cutting ceremony.

Watch the progress on our Facebook page and be sure and join us for our completion celebration!
