

Leadership Lewisville Sponsorship Opportunities

Developing, Connecting, and Equipping Leaders for the Future

Leadership Lewisville is a community leadership development program offered by the Lewisville Area Chamber of Commerce. The course was established in 1986 to identify, educate, develop, and inspire emerging leaders for community involvement by exposing them to the realities, opportunities, and challenges of our civic and business community. For the 2016-2017 year, the course and content have been enhanced to enrich the experience for participants and sponsors.

As a sponsor of the Leadership Lewisville program, you are reinvesting in our community. This program helps participants develop and refine their leadership skills in order to produce stronger leaders in the workplace as well as in the community. At the conclusion of the program, Leadership Lewisville graduates will be challenged to immediately put their skills to use by serving on a nonprofit board or taking the necessary steps to be more active in city council or school board.
