

425 SMILES 2022

Join 425 Dental and the University of Washington School of Dentistry & PMI Hygiene Program for 425 Smiles - a FREE

Dental Care Event for Those in Need!

425 Dental, in partnership with the University of Washington School of Dentistry and PMI Dental Hygiene Program, is happy to bring you 425 Smiles - a **FREE** dental clinic event on Saturday, October 22, 2022 for those who have a difficult time affording routine dental care.

What Is 425 Smiles?

It's 425 Dental's way of giving back to the community that we love so much! We understand that receiving dental care can sometimes be costly, but no one should have to forgo the dental care they need due to their financial situation.

Sign up and, on October 22, visit 425 Dental at 710 NW Juniper St, Issaquah, WA from 8:00am-2:00pm to have select dental care performed, free of charge. Please note that you must sign up ahead of time, and care is available on a first come, first served basis only.

Is It Really Free for Those In Need?

Yes! Attendees will have the opportunity to have a dental exam, x-rays taken, cleanings performed, and/or fillings placed when needed, among other select care - free of charge. The 425 Dental staff will be assisted by students and faculty of the UW School of Dentistry & PMI Dental Hygiene Program as they assist us in treating as many patients as possible, and the students gain real-world experience for their future as dental professionals. We aim to assist as many people as we can throughout the day - but please keep in mind that it is our goal to help as many people who are going through financial hardships and cannot afford routine dental care as possible. Due to the large volume of patients we expect and because this is a volunteer event, we cannot guarantee care even if you sign up online. Please arrive early, and be prepared to wait for the highest possibility of being seen. Snacks will be available.

Date: Saturday, October 22, 2022

Location: 425 Dental
710 NW Juniper St #101,
Issaquah, WA 98027

Time: 8:00am-2:00pm
