## Chair Report

## PRESENTATION, DISCUSSION, ACTION

### Corona 2020 Update

The Chamber will provide an update of progress towards the current 2020 employment, health care access, and traffic reduction goals.

**It was the discussion of the LAC to focus on health care and transportation issues for the State and National Summits. The LAC will work with legislative offices to build the presentations for these summits.**

### 2018 State Summit, Sacramento May 22-24

We have booked rooms and are in the midst of arranging for speakers for the Corona Business Summit Tuesday, May 22 through Thursday, May 24. The welcome dinner at Frank Fats will be on Tuesday, May 22, our legislative breakfast with Assemblymember Sabrina Cervantes and State Senator Richard Roth will be the morning of Wednesday, May 23 and our Corona Business Summit on May 23, is regularly adding speakers.

## LAC ACTION ITEMS

*Items will be considered and acted upon once a motion and a second have been offered by committee members*

## Announcements

**Adjourn 9:20 AM**

## **ATTACHMENT #2 SUPPORT AB 1594**

[http://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill\\_id=201720180AB1594](http://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill_id=201720180AB1594)

For over a decade, the State of California and several local communities have regulated the flow of plastic waste from use to reuse to refuse. This bill will require that a comprehensive report on the impact of those regulations be produced.

## **ATTACHMENT #3 OPPOSE AB 2379**

[http://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill\\_id=201720180AB2379](http://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill_id=201720180AB2379)

Well over 50% of the clothing sold in California has some form of polyester or synthetic material woven into the fabric. This bill would require that all clothing, including that being resold at Goodwill for instance, be labeled in the same style as Prop 65 warnings at facilities open to the public, that microfibers from the clothing could come loose during washing and may pollute the environment. In addition, the labelling would encourage hand washing, which is often a much less efficient use of water and soap.

While the regulation of clothing 'pills' on washed fabric may seem like a small matter, requiring California specific labelling on clothing sold in California, or more specifically requiring clothing donated for resale to be additionally labelled is a potential major expense for businesses, consumers, and charities that rely on the proceeds from the resale of clothing.

## **ATTACHMENT #4 OPPOSE SB 100**

[http://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill\\_id=201720180SB100](http://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill_id=201720180SB100)

California employers and residents face some of the highest energy costs in the state, whether at home or at the pump. These costs get transferred into nearly every expense paid by Californians, from food to entertainment. In addition, it is widely acknowledged that while California is a leader in the adoption of non-carbon energy generation, that the costs related to these forms of generation is extremely expensive within the current marketplace.

SB 100 would require that California substantially expand its use of alternative non-carbon energy almost immediately, culminating with complete 100% non-carbon generation of energy which is unprecedented on as large a scale as proposed here in the world.

## **ATTACHMENT #5 OPPOSE AB 2841**

[http://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill\\_id=201720180AB2841](http://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill_id=201720180AB2841)

Under current state code and regulation, employees begin to accumulate sick leave after the first 30 hours of employment worked, topping out at roughly 30 hours of sick leave annually. This bill expands that schedule to 40 hours of sick leave after little more than six months of employment and allows for the banking of 80 hours annually in sick leave.
