

EPLF - Faith Leadership Conference

Hundreds of Leaders will gather at the Oregon Convention Center for the NW Emergency Preparedness Leadership Forum – Tuesday & Wednesday, November 1 & 2, 2016. This forum will provide the perfect platform to discuss current key issues our state, counties, cities and local communities face today in our efforts to plan and prepare for any emergencies and disasters that lie ahead.

The Faith Leadership Conference will be held ONLY on Wednesday, November 2nd, but everyone can attend both days of the Forum & have FULL ACCESS to the Expo Floor.

Churches and other houses of worship hold vital roles in our communities as places of refuge from the chaos of everyday life as well as comfort, compassion and provision in times of tragedy and disaster. This conference provides an opportunity for pastors, church leaders and other faith leaders to connect and collaborate with prominent non-profit organizations; small businesses and corporate leaders as well as governmental officials at all levels.

This Faith Leadership Conference will also feature expert speakers in regards to preparedness from a faith-based perspective in a collaborative response to any emergency event. Additionally, you will learn how your congregation & its members can help prepare others to meet the spiritual, physical and physiological needs that individuals, congregations & communities have in the wake of any emergency or disaster.

As a community leader your participation is essential, as we collectively prepare for local and regional life altering events that will impact not only our congregations, but also our entire communities profoundly. It is by preparing together, we will have the greatest impact in our communities. We will be the tangible expression of God's love to people in great need. Let's be intentional & diligent in our collaborations at all levels of society.

To participate, please contact:

Eric Cummings
