

## **COVID-19 Update: First glance at the stimulus bill**

A deal was reached early this morning on the third and largest COVID-19 aid bill, a stimulus package designed to help the ailing economy and ease the burden on families and workers. At over \$2 trillion dollars, there is simply nothing in our past to compare it to as we move further into uncharted territory.

For economic developers, the bill contains many items of interest. Below, we offer a first glance breakdown by agency or program. The situation remains fluid as the Senate continues to debate a few remaining sticking points, but we believe this to be fairly close to what their final bill will look like in terms of scope. After the Senate concludes their business on the bill, the House must also act before it can be sent to the president and made law. The Senate and the administration have been collaborating closely with House leadership over the previous weeks in a bid to ensure smooth, quick adoption of the Senate bill once it clears that chamber. Of course, we cannot be certain that will be the case, so please take all of that into consideration when reading the information below.

### **Economic Development Administration (EDA)**

EDA receives \$1.5 billion in supplemental funding, directed to the Economic Adjustment Assistance account. The agency also receives surge hiring authority, to allow EDA to properly staff the agency during this crisis; a 2% carve out of the supplemental funds is directed toward 'salaries and expenses' to support the surge.

### **Community Development Fund (CDBG)**

CDBG receives \$5 billion in supplemental funding. \$2 billion will be distributed according to the 2020 allocation formulas within 30 days. \$1 billion will be distributed to states to combat the spread of COVID-19 within 45 days, in amounts determined by the Secretary of HUD based on best available data and need. The balance of the supplemental funding will be distributed to states based on a formula determined by the Secretary of HUD using best available data on COVID-19 and associated economic and housing disruptions.

### **USDA Rural Development (USDA-RD)**

USDA-RD receives \$145.5 million in funding; \$20.5 million for the Rural Business-Cooperative Service that will make \$1 billion in lending authority available, \$100 million in grants for rural broadband service, \$25 million in grants for distance learning and telemedicine.
