

## West Randall Street Closing for Construction

Road reconstruction on West Randall Street between 64th Avenue and the Roundabout will begin July 6, 2015, and will reopen to traffic at the end of September. One lane of eastbound through traffic will be maintained throughout the project, however west-bound traffic will be detoured through River Street and O'Malley Drive.

"The City understands that this will be a major inconvenience for businesses and residents alike," said City Manager Steven Patrick. "We would like your understanding and patience during the construction period."

Mr. Patrick also encourages drivers to respect the businesses in and around construction by following posted detours, not cutting through local parking lots. "Sergeant Luce and the Ottawa County Sheriff deputies will be enforcing detours throughout the construction," stated Mr. Patrick. There will also be no left turn from O'Malley onto southbound 68th Avenue: signs will direct drivers to use the roundabout.

The much needed road reconstruction will include removal of asphalt, replacing with concrete paving, installing curbs and gutters, adding storm sewer, irrigation, landscaping, and a sidewalk on the south side of West Randall Street. Work is scheduled to be completed entirely by October 16.

Updates on construction will be posted on the City's facebook page ([facebook.com/cityofcoopersville](https://www.facebook.com/cityofcoopersville)), website ([www.cityofcoopersville.com](http://www.cityofcoopersville.com)), and as appropriate in the local media.

For questions, concerns, or comments, please contact City Hall at (616) 997-9731 or [construction@cityofcoopersville.com](mailto:construction@cityofcoopersville.com).

Issued June 15, 2015

### Quick Facts
