Testimonials

"The Penfield Business Chamber (PBC) advocates for the business community by bringing credibility to businesses, increasing visibility in the community, establishing business contacts through networking, and by gaining a voice in government. When a business owner makes the decision to become a member of the PBC, they are opening their business up to exchanging ideas, developing relationships, and improving their professional network." - **Tony LaFountain, Penfield Town Supervisor**

"Being a member of the Penfield Chamber of Commerce has been a great experience for me. It has given my company great visibility within the community and has helped us gain credibility with area leaders." - **David Wolmering, President, Wireless Zone**

"Since day one, I have professionally and personally enjoyed being an active member of the Penfield Business Chamber. The opportunity to meet the Penfield business community has definitely led to increased business and knowing more about the business community than I had previously. It is a great group of people who are committed to making a positive difference in the Penfield community." - **Daria Reitknecht, New Business Development, Genesee Valley Penny Saver**
