Mission: To promote communication, innovation, and cooperation between GDOT and consultant firms on issues affecting design decisions, criteria, processes, and implementation as well as plan and document presentation.

Attendees:
Frank Flanders, Co-chair – GDOT Design Policy
Brad Robinson, Co-chair – Wolverton
Kevin Ergle – Kimley Horn
Anthony Prevost – HNTB
Matt Thompson – VHB
Shawn Reese – Gresham Smith
Jonathan Langley – Arcadis
Arwin Lopez – Pond
Eric Rickert – KCI
Drew Martin – GDOT
Jin-Mi Matsunaga – GDOT

1) On-Going Topics
   a) Drainage Manual
      i) The group reviewed questions related to the policy spreadsheets created individually.
      ii) After the discussion, each individual will review again for consistency in the approach and classification of each policy. Drew said not to spend a lot of time on rewriting the policies as GDOT will complete that task.
      iii) Each will coordinate with their reviewer and provide the final spreadsheet back to Brad by 8/19/20. Brad will provide all spreadsheets to Drew for GDOT’s review.
      iv) Drew said we were making good progress as his goal is to have all policy identified and classified by December. This schedule will allow Drew to review and reengage the subcommittee with any questions or follow-up tasks.

2) Design Policy Updates
   i) Frank said that Bentley has not yet shared the plan and cost for sunsetting of SS4 and older versions. Conversations are continuing with Bentley. It still seems that node locks may be an option to use on older projects, but Bentley has not yet committed to this.
   ii) Frank said that GDOT is still developing the EDG requirements for OpenRoads. There will be leniency from GDOT for EDG compliance until those guidelines are developed.
