

AMERICAN COUNCIL OF ENGINEERING COMPANIES
of North Carolina

Engineering North Carolina's future.

Legislative Agenda 2017-2018

The Mission of ACEC/NC is to represent the business of engineering through legislative advocacy and business services

Infrastructure

- Support the State Blue Ribbon Commission studying Infrastructure Needs and Funding
- Support development of long-term funding programs for both transportation and non-transportation infrastructure.
- Repeal of the revised Transit Cap and strengthening STI
- Support a Transportation Bond Referendum

Energy

- Support the development of a long-term sustainable energy program with appropriate funding that considers all energy sources.

Economic Development

- Support investment in Water/Sewer/Storm water Infrastructure
- Support continued Regulatory Reform measures.

Professional

- Monitor proposed changes to Engineering Firm Ownership
- Support appointments of engineers to appropriate state boards and commissions
- Oppose the taxing of professional services
