ACEC/NC continues Advocacy Efforts with State Legislature

Your ACEC/NC advocacy team continues to discuss mitigation measures with General Assembly leadership and promote the need for action when the legislature returns next week for a 2-3 day session to consider COVID related issues.

Thank you to those firms that have contacted their legislator(s) and forwarded our April 20th letter to their representatives. Our efforts and those of our industry partners is having a positive effect and momentum is building for an infusion of emergency cash to NCDOT. If you have not seen it, the Secretary’s letter to leadership is attached.

Industry Survey of NCDOT Cutbacks Coming Out Later Today

In order to provide the legislature with accurate information on the effects of the NCDOT cuts, please watch for and complete the industry survey that will go out later today. It should only take a few minutes to complete but will provide vital statistical data that we will use in our discussions.

NCDOT Responds to Town Hall Questions

A copy of the questions that resulted from our virtual Town Hall meeting last week are attached, along with the NCDOT response received today.

Continue to watch for updates as we get closer to the return of the General Assembly. As always, submit your questions to Jim Smith at jsmith@acecnc.org.
