Éloïse Harvey is President of Mecfor - a large equipment manufacturer based in Quebec – who designs and fabricates custom, specialised vehicles for the heavy industry, namely the primary and secondary producers of aluminium and maintenance of way and rail equipment.

Éloïse joined Mecfor in 1999 after obtaining a double degree in Mechanical Engineering and Management from McMaster University in Ontario (Canada). After 15 years in sales and business development taking the company to the international scene, she bought back the family business in 2018 with financial partners. The focus is now to continue the growth of the business through acquisitions and innovation.

Éloïse is an executive committee member and a member of board of directors for organisations such as ALUQUEBEC and INVESTISSEMENT QUÉBEC, both of which are associated with promoting the growth of Quebec’s economy and exports.
