

Mike Kilby Bio

Mike Kilby is the President and Chief Executive Officer at Dajcor Aluminum Ltd.

The company, founded in 2010, has been quickly recognized as a leader in the aluminum extrusion, fabrication and anodizing industry.

Under Mike's stewardship, the company expanded in 2016 tripling its capacity.

In 2019 anticipating further capacity needs Dajcor located a second plant in Hazard Kentucky. This gives Dajcor strategic reach into US markets to further its outstanding growth in Aluminum extrusion, fabrication and anodizing. Dajcor is one of only a handful of aluminum extruders with facilities on both sides of the US/Canada border.

Prior to Dajcor Mike held various roles in the energy industry as Divisional Vice President of Energy Marketing at Altagas Ltd, a Canadian publicly traded company, and as Vice President of Energy Marketing and co founder of PremStar Energy Canada Ltd, (now part of AltaGas Ltd).

Mike is a professional engineer with an undergraduate degree in Mechanical Engineering from McMaster University.
