

**Legislative Agenda and Legislation of Interest
2017 Legislative Session
(7-Jun-17)**

NCBIO Legislative Agenda				
Appropriations Items				
Item	Short Reference	Description	Senate Budget	House Subcommittee Budgets
1	NCBC	Fully Fund North Carolina Biotechnology Center	Reduces funding by \$680,117 to \$12,920,321. Special provision requires Center to raise one dollar in non-state funds for every four dollars in state appropriations; limits Center allocation for administration and similar functional groups to 10% of appropriation. Allows transfers of up to 10%, except for administrative flexibility, between Center functional groups. Requires that no less than 75% of all state funds awarded by Center be in form of loans. Center officials say these restrictions are very detrimental to Center's operations and seriously limit its ability to strategically address new biotechnology opportunities.	Maintains current funding at \$13.6 million. Removes Senate matching funds requirement, requirement that 75% of awards be in the form of loans. Changes limit on Center allocation and similar functions to 13.7% (\$1,863,246). Allows for transfers of up to 10%, except for administrative flexibility, between Center functional groups.
2	SBIR/STTR	Fund SBIR STTR Matching Grant Program at \$5M	Eliminates funding for SBIR/STTR matching grant program.	Restores \$1M in non-recurring funding to SBIR/STTR matching grants fund by transferring a like amount from the Industrial Development Fund Utility Account. Restores funding ofr Office of Science, Technology & Innovation
2A	OSTI	Fund Office of Science, Technology & Innovation	Eliminates funding for Office of Science, Technology & Innovation	Restores funding for Office of Science, Technology & Innovation
3	NCBioImpact	Fully Fund NCBioImpact Training Consortium	Provides no additional funding for NCBioImpact programs.	Provides \$500,000 in additional non-recurring funds for Biomanufacturing Training and Education Center "to help train and fill the more than 500 engineering and similar baccalaureate and post-baccalaureate positions in the biomanufacturing industry's current hiring cycle."
4	R&D	Enact Small R&D Company Tax Relief	Includes no appropriations targeted to small R&D company tax relief. Senate budget provision limiting franchise tax of S-corporations does not materially aid R&D corporations, which are typically established as C-corporations.	Includes 100% sales tax refund for R&D supplies purchased by small research companies in tier three counties. Allows alternate refund of 50% of state portion of sales tax on <u>all</u> purchases by small research companies in tier one and tier two counties. Caps maximum grant per company at \$20,000 per year. Caps maximum grants for all companies at \$15M per year

Item	Short Reference	Description	Senate Budget	House Subcommittee Budgets
Non-Appropriations Items				
	Topic	Description	Notes	Status
5	Wastewater	Biomanufacturing Waste Water Treatment Strategies	H158/S118 offers potential for private financing for wastewater treatment facilities	Committee substitute for H158 reported favorably by Senate Finance Committee. Bill is now in Senate Rules.
