

**Less than Two Weeks****[Legislative Wrap-Up Forum](#)****August 24, 2020**  
**Noon - 1:30 p.m.**

With less than two weeks to go, register now to join us on **August 24** at Noon for our Legislative Wrap-Up Forum. This Forum provides a great opportunity to hear from the Life Science Caucus leaders, who are committed to being strong supporters for the industry.

- **Senator Paul Newton**, Co-chair, Life Science Caucus (R-Cabarrus, Union)
- **Senator Mike Woodard**, Co-chair, Life Science Caucus (D-Durham, Granville, Person)
- **Representative Donna McDowell White**, Co-chair, Life Science Caucus (R-Johnston)
- **Representative Robert Reives**, Co-chair, Life Science Caucus, (D-Chatham, Durham)

The short session in 2020 focused almost exclusively on COVID-19 related expenditures and concerns with revenue shortfalls. While many issues were set aside with the pandemic, there has also been opportunity for the life science industry to better tell its story as it works to provide therapies and vaccines.

We hope you will join us for this legislative session summary, moderated by NCBIO President, **Sam Taylor**. Get answers to your questions surrounding legislative matters and the life sciences. Submit your questions in advance to [Amber Niebauer](#).

Sign up by Thursday, August 20 at noon to reserve your spot using your personalized link below. Please feel free to share this invitation with others in your organization, but they will need to contact [Amber Niebauer](#) to register. The webinar link will be provided to registrants on August 20.
