

Ways to Help with COVID-19

Supplies and Volunteers

At the Triangle level, [Duke Health](#), [UNC Health](#), and [WakeMed](#) are now accepting donations of personal protective equipment (PPE). If you or your company have a supply of masks, hand sanitizer, or other essential medical supplies, please donate them to help protect health care workers and patients. Details regarding donations to Triangle area hospital systems can be found by clicking on the links above.

At the state level, the NC Department of Health and Human Services is [recruiting volunteers](#) and supplies to supplement our health care workforce. This response is provided through the State Medical Response System (SMRS), which recruits and manages volunteers in the following areas:

- Clinical (physicians, advanced care providers, nurses, EMS)
- Clinical Support (pharmacy, imaging and respiratory care)

- Non-clinical support (facility maintenance, safety, and administrative)

At the national level, BIO created the [Coronavirus Hub](#) to connect companies with capacity and resources with those that need them. This new hub will enable users to post requests for urgently needed items and announce the availability of supplies and capacity. The portal connects in real-time through customized and searchable postings. Thank you to BIO's partner, [Healthcare Ready](#), for helping facilitate connections for supplies and resources.

NCBIO has compiled additional COVID-19 Resources, [click here](#) to learn more.

If your company donates, volunteers or helps combat COVID-19 please notify us with a brief e-mail to [Amber Niebauer](#). It is important that NCBIO report to our state's people and leaders the many ways our community is helping in this crisis.
