NCBIO Wants you to know

November 14-16 Pinehurst

[Register](#) today to be part of the Southeast region's life sciences and medical technology conference. It is expected to draw more than 300 attendees, including investors from over **30 regional and national venture funds**, corporate executives, entrepreneurs, professional service providers, and representatives from the region's top research universities and institutes.

See the region's best early and late stage life science and medical technology companies. Watch the SEBIO Early Stage Shootout companies. See what new products and investments the corporate partner, Eli Lilly, is looking for. Choose between either a Medical Device or BioPharma breakfast panel. Take advantage of four general session panels and learn more about later-stage companies looking for follow-on financing.

Wednesday's keynote address will be presented by Ned David. Ned co-founded UNITY Biotechnology in 2011, largely because he thought it was "simply the coolest biology he had ever seen." Before UNITY, Ned co-founded four other biotechnology companies that together raised over \$15 billion in financing and today employ over 400 scientists,

engineers, and business people. Ned builds companies because he sees company creation as a means to create technologies that change the world.

PANEL HIGHLIGHTS

Learn from these noted national leaders

Bill Walker, founder, HemoSonics

Ken Gall, founder, MedShape and Vertera Spine

Derek Norman, Syngenta

Mike Salvino, Carrick Capital

H. Morgan Crafts, Northrup Grumman

Venture capital continues to play a critical role in financing innovation in the life sciences. The closing event will feature a panel of prominent industry investors on November 16. The panel will focus on current trends, including the unprecedented amount of capital currently flowing into the industry and the state of the public markets.

OTHER HIGHLIGHTS

All registered attendees have access to the **SEBIO/Connect** online partnering system to facilitate one-on-one meetings with other attendees and there will be plenty of opportunities for informal networking throughout the conference.

To view the entire conference program, visit the online [agenda](#).

ROOMS ARE SELLING OUT
