

## VIRTUAL FORMAT

[Lab Space in North Carolina](#)

July 16, 2020  
Noon - 1:30 p.m.

In three weeks, on July 16, join NCBIO and other members to learn about Lab Space in North Carolina. Bring your lunch and hear how COVID-19 is affecting lab space design and the functionality of office and shared spaces.

This session will be moderated by NCBiotech Center's Director of Life Science Economic Development,

**Dr. Laura Rowley**. Panelists include:

- **Doug Cook**, Senior Director, Cushman and Wakefield
- **Merrill Flood**, Director of Planning and Community Engagement, East Carolina University Millennial Campus
- **Jason Kaplan**, Associate Vice President, Operations, Innovation Quarter; Associate Vice President, Academic Resources, Wake Forest School of Medicine
- **Chuck Mummert**, Principal, Raleigh Office, Flad Architects
- **Marlene Spritzer**, Senior Director, Lee and Associates

Get answers to your questions around how people are working in existing spaces, how spaces are being retrofitted for new tenants, and more. Submit your questions in advance to [Amber Niebauer](#).

Sign up to reserve your spot using your personalized link below. Feel free to share this invitation with others in your organization, but they will need to contact [Amber Niebauer](#) to register. A link with webinar information will be provided to registrants on Tuesday, July 14.
