

## PROMIS National Center (PNC) Contacts

*The PROMIS National Centers (PNCs) work around the world to optimize and harmonize global use of PROMIS measures and related resources for research, clinical care, and population monitoring. PNC members convene a PROMIS International Committee that helps identify, coordinate, and promote best practices to develop, translate, validate, and utilize PROMIS measures across countries. More information is available on the PHO website: <http://www.promishealth.com/pho-international>. Here are PNC representatives from a number of countries.*
