

PROMIS National Center (PNC) Representatives and Contacts

The PROMIS National Centers (PNCs) work around the world to optimize and harmonize the use of PROMIS measures and related resources for research, clinical care, and population monitoring. Some PNC members convene a PROMIS International Committee that helps identify, coordinate, and promote best practices to develop, translate, validate, and utilize PROMIS measures across countries. More information is available on the PHO website: <http://www.promishealth.com/pho-international>. Below is a list of current PNC representatives.
