

TESTIMONIALS

BIA HAWAII'S CONSTRUCTION TRAINING CENTER (CTC)

"The BIA Construction Training Center of the Pacific is one of the most valuable resources available for trainers. The building is ideal for conducting meetings and training sessions for small and large groups with a variety of rooms available at very reasonable pricing. We have used this facility from the time it opened and are so pleased with the excellent condition of the facilities, the location and parking. We cannot say enough kind words about the staff at the BIA. They are exceptional people who go out of their way to provide ensure great customer service. This team is consistently pleasant, attentive to our needs as instructors and helps to ensure our students are comfortable and treated with the best training environment possible. I highly recommend the BIA CTC for any meeting or training session".

Tracy Lawson, Lawson and Associates

"The BIA Training Center is the ideal location to conduct our Simpson Strong-Tie Product Workshops. For years we were looking for a facility that has both classroom and laboratory training space to conduct our demos in one building. The BIA Training Center has both. Not only is the training center tailored to our physical requirements, the BIA Staff is a tremendous help in accommodating our every need from seating and table arrangements, referrals for quality caterers, to even hanging our banner out front on workshop day. Simpson Strong-Tie has used many other venues in Hawaii for its training (hotels, colleges, etc.) but none of them compare to the BIA Training Center and its staff. We always feel welcome and at home there".

Tim Waite, Simpson Strong-Tie

"I am very pleased that BIA Hawaii's training facility in Waipahu caters to the needs of short courses required for professional training and certification. Best of all is the ever supportive staff. I think that is what makes conducting training classes in BIA Hawaii always special. And we do keep coming back".

Michelle Mercado, Solomon Resources, LLC

"The University of California, San Diego OSHA Training Institute Education Center continues to have the pleasure of holding safety classes at the BIA Construction Training Center of the Pacific. UCSD has received the highest level of customer service from the amazing staff at the Training Center. The staff is not only accessible, but kind, courteous and flexible with our students and instructors. UCSD is extremely proud to be a part of the BIA-Hawaii family!"
