

## **Title: How to Use the New CDC Guidelines on Opioids for Treatment**

ON DEMAND WEBINAR – From Morehouse School of Medicine/SERCN

### Course Description:

This webinar will examine the new guidelines released by the CDC for prescribing opioids to patients. Our speakers will explore the benefits and challenges posed by these new guidelines and the impact it can have on the delivery of care and the patient-provider relationship. Our experts will offer recommendations for delivering optimal care to patients while taking into considerations the new CDC guidelines.

### Course Objectives:

- 1) Identify the challenges associated with prescribing patients opioids;
- 2) Describe barriers and benefits created by the new CDC guidelines in prescribing opioids;
- 3) Identify best practices for effective prescribing opioids to addressing patients dealing with opioid addiction.

Estimated Time: 60 minutes
