about RTCC
GROWING BUSINESSES | MARKETING THE REGION | ATTRACTING TOP TALENT
The Research Triangle Cleantech Cluster accelerates the growth of the Research Triangle's cleantech sector by connecting industry, government, and academic partners. We work with regional stakeholders to develop and recruit talent, make strategic connections which lead to local and global business opportunities, and market the region as a global cleantech destination.
2020 CLEANTECH INNOVATION AWARD CATEGORIES

CLEANTECH CHAMPION OF THE YEAR
Recognizing an individual who exemplifies commitment to supporting the cleantech industry. Achievements may include an outstanding commitment to sustainability, business expansion or relocation, development of high-impact technology, or spearheading regional/cross-sector collaboration to drive innovation.

CLEANTECH IMPACT AWARD
Recognizing a cleantech organization that has accelerated economic growth in the region or state. Examples may include a cleantech business that has relocated to the region or state, an existing cleantech employer that has expanded, or an organization that has enabled such economic growth.

CLEANTECH TALENT INITIATIVE AWARD
Recognizing a program or initiative that supports or develops people entering the cleantech industry. Examples may include a corporate apprenticeship program, a community college certificate in clean technologies, K12 curriculum, etc.

DIVERSITY IN CLEANTECH AWARD
Recognizing an organization or initiative that has made significant contributions to ensuring the cleantech workforce reflects the people it serves. Examples could include targeted efforts to expose underrepresented groups to cleantech career opportunities, corporate programs to hire and support underrepresented employees, mentoring or networking initiatives, etc.

GRID INNOVATION AWARD
Recognizing an electric utility or grid project that uses innovative cleantech solutions to create positive impacts for environment, economy, and residents.

WATER INNOVATION AWARD
Recognizing a water or wastewater project that uses innovative cleantech solutions to create positive impacts for environment, economy, and residents.

TRANSPORTATION INNOVATION AWARD
Recognizing a transportation or mobility project that uses innovative cleantech solutions to create positive impacts for environment, economy, and residents.

CLEANTECH COMMUNITY AWARD
Recognizing a local government or community which has completed an innovative project incorporating clean technology to create positive impacts for environment, economy, and residents.
