

Gary Johnson - Lytx

Gary Johnson, Director of Risk and Compliance Management at Lytx, has more than three decades of experience in the transportation industry, with an emphasis on occupational safety and health, human resources and employee management. In February 2014, Gary joined video telematics leader Lytx, where he provides service consulting and innovative program solutions to fit the risk and compliance needs of Lytx's 3,000+ commercial transportation and government clients. Gary works with Lytx clients to structure enterprise risk management programs to fit their specific needs.

He also develops alternative risk solutions to benefit the transportation industry.

Gary's career path has included leadership positions at companies such as Ryder Systems, FedEx Express, Transport Corporation of America, RAIR Technology, Lakeville Motor Express and Anderson Trucking Service. Gary has also spent time as an adjunct instructor for Century College in Minnesota, where he educated new industry professionals on Federal Motor Carrier Safety Administration (FMCSA) rules and regulations, in addition to instruction on the understanding of the FMCSA's Compliance Safety Accountability (CSA) program.

Gary is a Certified Director of Safety through the North American Transportation Management Institute and holds numerous other safety accreditations. He is active within many transportation industry associations, including current positions at the American Trucking Association Safety Management Council's Accident Review Committee, Regulations Committee and Conference Program Development Committee. Gary is also the past President of the Minnesota Trucking Association's Safety Council, where he has held a board position for the past 15 years.
