

**Eric Johnson, M.Sc. P.Ag.
Department of Plant Sciences,
University of Saskatchewan**

Eric Johnson works as a Research Officer for the Weed Research Program in the Department of Plant Sciences at the University of Saskatchewan.

He was born and raised on a grain farm northeast of Eston, SK. Eric received both his Bachelor and Masters of Science in Agriculture at the University of Saskatchewan.

He has over 35 years of research and technology transfer experience, working as a Weed Biologist and Officer-In-Charge for Agriculture and Agri-Food Canada in Scott, as well as an Extension/Soils and Crops Agrologist for the Saskatchewan Ministry of Agriculture.

Eric has led and collaborated on studies in cultural, chemical and mechanical weed control and Pesticide Minor Use. Eric received a Fellow Award from the Canadian Weed Science Society in 2016 in recognition of his career contributions to weed.
