

Mike Gretzinger, B.Sc, CCA
Research Coordinator
Farming Smarter Research Association,
Lethbridge, AB

Mike Gretzinger is the Research Coordinator at Farming Smarter. He's the small plot guy with a big heart! He coordinates protocols, seeding, spraying, data collection, pictures, harvest and data processing for the small plot trials, research contracts and demos.

He currently manages the CHTA variety trials, Manitoba Harvest Agronomy Trials, and “introducing high value specialty crops” project at the Farming Smarter location. Mike joined Farming Smarter in 2009. He loves that his job grows his agronomy knowledge.

During his B.Sc Biochemistry, he worked in quality control (Black Velvet Distilleries, Maple Leaf Pork) and as a technician for cabbage seedpod weevil (University of Alberta). In his free time Mike enjoys camping, hiking, golfing and doing dad stuff in his new garage.

20 YEARS AND GROWING

NATIONAL CONVENTION | WINNIPEG, MB | NOVEMBER 20 · 21 · 22, 2018
