

Peter Scales
Consultant, Processor

Pete Scales is Owner/Operator of ACI Foods, a strictly organic hemp processing facility located in Abbotsford, B.C. The facility dehulls, presses, packages and distributes hemp products as well as providing hemp-related R & D.

Trained originally as a Marine Biologist with post graduate education in marine agriculture and business administration, Pete has a long history as an environmental scientist, professor and consultant.

A successful inventor, he has designed and manufactured commercial products and processing systems ranging from rotary composters, hemp processing lines, super absorbent pads for aircraft cargo holds to controlled environment technology for shipping live lobster.

For the past two years Pete has served CHTA as a board member, 2015 as CHTA Conference Organising Committee Chair and present Chair of the CHTA Standards Committee.
