4<sup>th</sup> ANNUAL  
**STEM LEADERSHIP  
 BREAKFAST**

**MARCH 28, 2019**

Revere Hotel, Boston, MA 7- 9 am

The annual STEM Leadership Breakfast brings together 300 influential leaders from the region’s life sciences, technology, engineering, venture capital, healthcare and pharma industries.

The event is centered around United Way’s BoSTEM initiative, aiming to ensure 100% of Boston’s middle school students have the opportunity to participate in expanded STEM learning experiences by 2022.

BoSTEM provides hands-on learning opportunities involving corporate volunteers, teachers and nonprofit staff that give students the chance to apply math and science skills in exciting, real-world contexts.

Help us expose them to our region’s innovation economy and pave our continued economic growth.

Our Breakfasts have welcomed keynote speakers **Corey Thomas** of Rapid7, **Paul Sagan** of General Catalyst, **Jessica Gelman** of Kraft Analytics Group, **Dr. Feng Zhang** of the Broad Institute of MIT & Harvard, **Rahn Dorsey**, Boston’s Chief of Education, **Lisa Brothers** of Nitsch Engineering, and more.

United Way is proud to award the **annual STEM Corporate Leader** and Student of the Year to a local company and youth whose passion for STEM exemplifies our mission to inspire the next generation of leaders. **Nominations are open!**

Please join us this year to celebrate our outstanding work and support the future of our youth. Change can’t happen without you.
