

## Tools for Schools Program

Intro to a Career in the Building Industry

Members of the Mid-Minnesota Builders Association go into area high schools located in the area MMBA serves: Crow Wing, lower part of Cass and Wadena Counties. Tools for Schools (Intro to a Career in the Building Industry) allows students to acquire not only basic construction information, but also the information needed to understand the residential and commercial construction industry. Students have the opportunity to learn about careers in the industry by interacting with local businesses.

The Education Committee has been working with the following high schools to set up a Building Trades event for the 2019–2020 school year: Brainerd, Verndale and Menahga.

If you are interested in participating in an upcoming Building Trades event, please contact the MMBA office at [cmfacks@brainerd.net](mailto:cmfacks@brainerd.net) or 218-829-4982.

This is open to all MMBA members. Be sure to check out videos from past events on the MMBA website.

The MMBA Tools for Schools will be taking place at the following schools:
