AMFA, CMMA and TSMA have partnered with OECS to bring an informative and interactive SAFETY SERIES to all members. Are you looking for information on how to keep up on the many environmental health and safety regulations? This can be an overwhelming and daunting task. Our team of experts will help you get your safety edge and share how to create a strong safety program that reduces your risk and exposure, while ultimately paying back a healthy return. Discover a clear pathway to take immediate, positive steps for your company. Sessions are repeated in three locations; you decide which works best for you.

**Safety as Your Secret Weapon**

**MMA Safety Series. FREE to Members!**

Making safety a part of your company’s CULTURE is the SECRET SAUCE to better job satisfaction, productivity, retention, and morale! Learn 6 strategies to help you build a positive safety culture. Your presenter will be utilizing the highly acclaimed book, “Safety 24/7” in a very interactive session.

Takeaways from attending the session:

- Build leadership buy-in, the foundation for every safety culture
- Move employees from compliance to believing in safety
- Understand the powerful forces of human nature in high risk scenarios
