

The app for hourly employees

Branch empowers enterprises to attract and retain hourly employees by providing a mobile-first technology that helps them get ahead financially and professionally.

WHY IMPLEMENT

Decrease Turnover.

Employee turnover is at all-time highs, costing employers \$2,500+ to replace one hourly worker. Retaining and engaging employees can improve a company's productivity, customer experiences, and bottomline.

Increase Productivity.

By offering hourly workers the flexibility they need to balance their financial and professional lives, Branch helps employers reduce turnover, increase engagement, and boost efficiency.
