

AGENDA

1. Requirements – Rules Under Development
 - a. Unified Fall Protection Rulemaking (For All Industries) – DOSH has interest from industries to combine all fall protection requirements into one standard. DOSH is holding stakeholder meetings throughout the year to hear input. Go to the following link for comparison documents and to RSVP for a meeting in your area. The Spokane meeting is scheduled for July 19, 9 a.m. to 12 p.m. at Enduris Spokane.
 - i. Link: <http://www.ini.wa.gov/Safety/Rules/WhatsNew/FallProtection2016/unified.asp>
 - b. Construction Fall Protection Rulemaking (For Construction Only) – Federal OSHA has recently updated its fall protection policies and standards and requires DOSH to meet or exceed those changes. The link below has WAC 296-155 Part C-1 Draft and an analysis document that compares the differences. Your input if valuable. Please review.

2. Compliance Inspection Updates
 - a. Hoisting with Extended Reach Forklift – Using manufacture approved attachments
 - i. Updated discussion – Have asked for feedback from DOSH regarding the reason for targeting this topic and the direction that Compliance is taking with the construction and general industry.
3. Safety Products
 - a. Cable Safe – Cord management, dropped object prevention and barriers – received a sample from manufacture. Discussed uses for multiple industries.
 - i. Link: <http://www.cablesafe.com/>
 - b. Labor & Industries – SAFETY APPS
 - i. Improving workplace safety just got easier with two new free apps available from the Department of Labor & Industries (L&I). They were developed with grant money awarded by L&I's Safety and Health Investment Projects (SHIP) Program. Both can be downloaded for IOS or Android devices. Safety training for teens and young workers.
