County peers talk invasive species strategies

After all the options and new info, which road agencies have joined neighbors to battle invasives together? No one can tell it better than your peers on the frontline where invasive species meet the right-of-way.

From deep underground, out of the darkness comes: The Invasive Species Workshop!

CRA is partnering with the Michigan Invasive Species Program in a low-cost, day-long workshop to better control invasive weed species in the road right-of-way (ROW).

Invasive experts will present resources available to road agencies including community management efforts through Cooperative Invasive Species Management Areas (CISMAs) and available grants for control.

Your "ticket" includes donuts, snacks and a lunch opportunity to network with a local CISMA and build relationships today!

Ticket pricing: \$89 (includes donuts, snacks and lunch)
