The Return to Work requires thoughtful planning and adherence to best practices for maintaining health and wellness. Our Workspace Planning, Design & Support team can help you develop a near-term approach for re-entry, one that ensures social distancing and productivity. Together, we’ll determine the appropriate level of occupancy for your space and begin reintegrating teams to ensure business continuity.

Please contact Gillian Baikie at gbaikie@cresa.com for more information.

**Services Include**
- Virtual consultation for near-term workplace strategy
- Potential occupancy counts for workstations and common areas
- Recommendations for phased work schedules
