In the wake of COVID-19 we all need to support individuals employed in the healthcare industry. The folks employed in these critical roles have the highest risk of contracting the illness and they are running short on essential PPE. Construction industry professionals understand all too well the elevated risk of workplace injury and illness if proper PPE is not available. Therefore, the Associated General Contractors of Colorado are asking all members to check their inventory to see if there is a possibility of donating any available Personal Protective Equipment that may benefit the people helping those that may be infected with COVID19 or suspected of being infected with COVID19 in particular filtering facepieces and Nitrile gloves.

All N95 Filtering Facepiece Respirators must meet the following requirements:

- Meet NIOSH N95 specifications (must bear label on mask)
- Be unexpired according to manufacturer date on packaging
- Be unused and in proper condition for use by OSHA inspection guidelines

Items can be dropped off at the following locations:

1. **The Salvation Army Warehouse**
   11701 E. 33rd Ave.
