NEW GEN

EMPOWERING AND EDUCATING THE INDUSTRY’S NEXT GENERATION

PROGRAM MISSION

The Building Industry Association of the Bay Area’s New Gen is an organization designed to empower and educate those new to the building industry. Through educational seminars and field trips, each class will gain an understanding of the life cycle of the project, while developing long lasting relationships with the members of their class and the participating builders.

With the industry’s holistic involvement and commitment to this program, each graduating class will be empowered and encouraged to remain engaged in the BIA, and its leadership opportunities, throughout their careers.

PROGRAM OVERVIEW

Participants will meet approximately once a month, in (7) two hours classes concentrating on a different stage of the life cycle of a project and the issues facing that discipline. Along with builders themselves, each class will be comprised of associate members and the multitude of disciplines that support our communities. Each month’s topic(s) will be delivered by a qualified industry leader in a presentation setting. Class members will be encouraged to engage with these industry leaders to gain insights and obstacles during the process.

In addition to the (7) two hour classes, there will be approximately 4 - 6 meetings throughout the year. These will range in topic from attending a regional meeting to attending a design team meeting. Any member with (2) absences will be removed from the class. Fee for this program is $95.
