

TULSA HOME & GARDEN SHOW

Electrical Order Form

Regular 120 duplex plug-ins will be provided within 25 feet of all booths, free of charge, but vendors are required to furnish their own extension cords to reach the receptacle. If you need more than 120 volt electric, please fill out this form and return it by fax, email or mail. You can also log-in to your exhibitor portal and add electric at any time to your contract. If you do not have any additional electric needs or have already turned them in through the online contract, disregard this form.

- ★ All water displays that are connected to electric must have Ground Fault Interrupter (GFI) protection. NO EXCEPTIONS.
- ★ All electrical requests must be made and, when applicable, paid for in advance by February 15, 2019.

Special Requirements:

240 volt outlets for spas, hot tubs, pools, air conditioning units, etc. are \$70 each.
Number Needed: _____ x \$70= _____

If a 120 volt Ground Fault Interrupter (GFI) is to be furnished by the Show management, an additional charge of \$60 will be applied.
Number Needed: _____ x \$60= _____

If a 240 volt Ground Fault Interrupter (GFI) is to be furnished by the Show management, an additional charge of \$210 will be applied.
Number Needed: _____ x \$210= _____

Company Name: _____ Booth #: _____
Contact Name: _____

If no form is returned, Show management is not responsible for ensuring electrical needs are met.
All 240-volt needs must be prepaid.
